Mr. Brad Bradley  
Remedial Project Manager  
U. S. Environmental Protection Agency  
230 South Dearborn Street  
Chicago, Illinois 60604

Dear Mr. Bradley:

Re: Final Construction Report - Second Draft  
Manville Disposal Area  
Waukegan, Illinois

Conestoga-Rovers & Associates (CRA), on behalf of Schuller International, Inc. (formerly known as Manville Sales Corporation), is submitting two copies of the second draft of the Final Construction Report and the revised Record Drawing Set for the Waukegan project for your review and comments.

As previously discussed, this report has been revised in accordance with the written comments on the first draft, prepared by USEPA, IEPA and W. W. Science and Engineering (WWSE), received by CRA on February 29, 1992. To highlight revisions made, additions to the text are printed in italics and underlined while deletions are printed with a line through. Upon receipt of formal USEPA approval on the text, a final version of the report, with italics, underlining and strikethroughs removed, will be issued.

Please note that the appendices section of the report has been intentionally left out from this revision submittal for reproduction cost savings. The appendices will be included with the final submittal of the report.

We have also forwarded copies of the report to Eric Stang of WWSE and Kurt Neibergall of IEPA for their review and comments.

We believe that the enclosed Final Construction Report, incorporating USEPA comments, is now approvable by USEPA. Once approval of the enclosed report is received, CRA will finalize and submit the report for formal USEPA/IEPA approval.
